Volume 19, Issue 4 — April 2025

Research Articles

1.

Transcorneal Electrical Stimulation in Different Optic Neuropathies and Retinitis Pigmentosa

Umur A. Kayabasi

Keywords: Transcorneal Electrical Stimulation, Optic Neuropathy, Retinitis Pigmentosa, Visual Acuity, Visual Fields

2.

Computational Screening of Microalgae and Cyanobacteria RuBisCO as Potential Precursors for Bioactive Peptides

Gurudeeban Selvaraj, Satyavani Kaliyamurthi, Zeynep Elibol Cakmak, Turgay Cakmak

Keywords: RuBisCO, bioactive peptides, microalgae, cyanobacteria, enzyme specificity, nutraceuticals, in silico analysis

3.

Landslide Hazards and Counter Measures for Smooth Flow of Traffic

Dr. Pramada Valli

Keywords: Landslides, Trench Drains, Finite Element Method, Slope Stability, Geotechnical Engineering

4.

A Review on Various Approaches of Liver Reprogramming

Pamukuntla Mounika, Mekala Anusha, Nalini Kanta Sahoo

Keywords: liver reprogramming, hepatocytes, gene therapy, stem cells, organ transplantation

5.

Media Literacy in Spanish Families: Diagnosis and Training Proposal

Natalia González-Fernández, Antonia Ramírez-García, José Ignacio Aguaded-Gómez

Keywords: media literacy, Spanish families, critical thinking, social networks, media education
