Research Articles

1.

Frequency and Function of English Structures that Connect Ideas in Informal Letters Corpus of Native Speakers and Iranian English Learners

Somayyeh Jalali, Zahra Fotovatnia

Keywords: English structures, discourse markers, informal letters, native speakers, Iranian English learners, corpus analysis, second language acquisition

2.

The Use Of Citric Acid From Citrus Fruits As Substitute For Weak Electrolyte In Conductance Measurement

Eluchie Nene Pearl

Keywords: Citric acid, Citrus fruits, Conductance measurement, Electrolytes, Molar conductivity

3.

A retrospective study of echovirus type 30 isolated from patients with viral meningitis in Zhejiang Province in China from 2002 to 2011

Yuan Wang, Nenghua Zhang, Jiangyan Xu, Junmin Cao, Xuhong Jiang

Keywords: Enterovirus, Echovirus 30, Viral Meningitis, Epidemiology, Zhejiang Province

4.

Molecular Characterization and Salt Tolerance Analysis of Bacterial Strains Isolated from Water Bodies of Khewra Salt Mine, Pakistan

Muhammad Kaleem Sarwar, Tahir Iqbal, Iqra Azam, Aqsad Rashda, Anum Zahra, Saira Bashir, Amina Khatoon

Keywords: Halophilic bacteria, Salt tolerance, Khewra salt mine, Phylogenetic analysis, Antibiotic resistance

5.

Phenolics, Flavonoids, Root-Specific Flavor Compound 2-Hydroxy-4-Methoxy Benzaldehyde, and Free Radical Scavenging Potential of Swallow Root: The Influence of Habitat Heterogeneity

Matam Pradeep, Parvatam Giridhar, Nandini Prasad Shetty

Keywords: phenolics, flavonoids, antioxidant activity, habitat heterogeneity, Decalepis hamiltonii, 2-hydroxy-4-methoxy benzaldehyde

6.

Communication and Meta-Communication in Software Engineering

Ugur Demiray, Boriss Misnevs

Keywords: meta-communication, software engineering, project management, socio-cognitive modeling, TOGA meta-theory

7.

COMPARATIVE OF HISTOGRAM EQUALIZATION METHODS

Rubina Khan
